

Tonara is the perfect app to get your children to practice their instruments in-between lessons!

With Tonara, I'm able to send my students assignments with instructions on what they need to work on before our next lesson, track their actual progress while they practice and communicate with them, providing ongoing support, encouragement & feedback!

STUDENT'S PROFILE

Your children will be able to view all their assignments, practice times, weekly charts, points, and positioning within my studio leaderboard and more

ASSIGNMENTS

They will receive their assignments, consisting of detailed instructions (e.g. notes, guidelines, recordings) to help guide them while practicing at home, they're also able to keep track of their own progress

TRACK PROGRESS

Both you and I have the ability to track your children's progress and improvements with real-time statistics. I set goals and we can both watch them be achieved

CHAT

I can communicate with your children via a messaging module, sending them fun stickers, celebrate musical milestones with them, and send encouraging notes to help in their practice

LISTEN and FEEDBACK

Tonara has a unique patented technology enabling it to actually listen to your children playing and provide real-time feedback

REWARDS

As your children practice more, they earn points, stickers and climb my studio leaderboard. All-in-all, making music practice more interactive, more engaging, and more fun
